Important event to be reported:

TMK-ARTROM took part in Tube 2018 Dusseldorf, the largest of the world pipe industry exhibition

TMK-ARTROM, has joined the TMK team (one of the world's largest producers of pipe products for the oil and gas industry), and traditionally took part in the specialized international exhibition Tube 2018.

At the TMK's exhibition stand, visitors from Europe, USA, Australia and Middle East got acquainted with the full range of the Company's pipe products. TMK-ARTROM has presented its full range of industrial pipes production including the new **Premium Industrial Pipes** as seamless heat-treated pipes and cold deformed & machined pipes for the manufacture of hydraulic cylinders and auto components.

During the TUBE 2018, Cristian Drinciu, the Chief Operational Officer of TMK European Division & TMK-ARTROM made the presentation about the approach of the new TMK-ARTROM's concept of Premium Industrial Pipes and its closed relations/cooperation with the customers. The key task – to assure the highest level of quality on each and every production stage, beginning of steel smelting, created in accordance with the specific requirements of a client, to the Premium commercial service and flexible support provided to the customers by TMK European Division's Industrial Pipes sales dedicated network.

In frames of exhibition TMK European Division has hosted traditional reception in honor of its partners and clients, over 200 representatives from about 100 companies worldwide — the customers, equipment producers and material suppliers. Adrian Popescu- CEO of TMK European Division /TMK-ARTROM and Veaceslav Popkov- the First Deputy CEO of PAO TMK have addressed to them with the greeting
