To: whom it may concern

Regarding: EU Directive 2011/65/EU on RoHS (Restriction of the use of certain Hazardous Substances in electrical and electronic equipment (RoHS), last revision 08.06.2011.

Dear customers,

We TMK-ARTROM, confirm that our tubes do not contain any substances declared as listed in the above referenced document in concentration above the limits specified.

All substances which were identified to be restricted listed in the Annex II of the EU Directive 2011/65/EU are not added during melting and casting process of the steel produced in TMK-RESITA, our billets supplier and should not be present in them at all or only as technically unavoidable trace impurities in concentration value tolerated by weight below specified.

Substance	Maximum concentration value
Cadmium	100 ppm
Mercury	1000 ppm
Lead	1000 ppm
Hexavalent chromium	1000 ppm
PBDE (polybrominated diphenyl ether)	1000 ppm
PBB (polybrominated biphenyls)	1000 ppm

Our products fully comply with RoHS requirements. The information in this statement is given according to our present knowledge. The information supplied does not imply us giving a warranty.

Best regards
Quality, Environmental & IMS Director
Magdalena Popescu
