## EU End Of Life Vehicle Directive (EU ELV Directive 2000/53/EC)

Dear valued customer,

The European Union ELV Directive 2000/53/EC, as amended (the "ELV Directive"), generally restricts the use of Lead(Pb) Mercury(Hg) Cadmium( Cd) and hexavalent Chromium (Cr VI) in vehicle, their components and materials, as a prevention of, and reduction of waste including improvement in environmental performance throughout the life of cycle of vehicle and a easier recycling.

The products( seamless tubes ) used for obtaining of different components or equipments sold by TMK-ARTROM S.A comply with the requirements of EU Directive 2000/53/EC (ELV) on End Of Life Vehicles and its amendments:

ELV Restricted Substance	Allowable Limit
Cadmium and its compounds	100 ppm (0.01 weight %)
Mercury and its compounds	1000 ppm (0.1 weight %)
Hexavalent chromium and its compounds	1000 ppm (0.1 weight %)
Lead and its compounds	1000 ppm (0.1 weight %)

We value our relationship and appreciate the need for environmental controls. Our company is certified according to ISO14001:2015 and considers to be an environmentally responsible one.

We are in compliance with all applicable local, national and international environmental regulations .

Hazardous substances restricted to use in accordance with the EU Directive 2000/53/EC (ELV) on End Of Life Vehicles are not present, above the threshold limits specified by Directive.

To ensure the conformity all our raw material suppliers are approved on base of our internal procedures, international or legal requirements and material supplied to us with inspection certificate 3.1 do not contain any hazardous substances .In our company the products delivered are always checked for conformity.

We are at your disposal for questions about the safe use of our products.
